African Thatch Umbrellas & Picnic Tables

Exotic and genuine African thatch cape reed garden umbrellas make your pool, patio or garden area into a tropical paradise. Creating a unique atmosphere, the African thatch garden umbrellas provide plenty of shade. Highly resistant to all the elements, these umbrellas are very heavy duty products, built to last. Our range of African thatch umbrellas are perfectly suited for both residential and commercial use. The steel or heart free Redwood timber poles require concreting into the ground to fully support the umbrella structure. The poles are supplied in either 3.0m or 3.6m lengths to accommodate the installation. Please Note: Because of the weight of these umbrellas it is not possible to support the umbrellas using a traditional style umbrella base. Once installed the umbrellas are designed to be left outside all year round. Our picnic tables are specially manufactured to order to incorporate either the 50mm steel or 125mm Heart Removed Redwood timber poles.
